Dear Cloudflare,

Pass-through or not, you are serving content to the US public as an ISP and will lose your DMCA safe harbor under 17 USC section 512 unless you stop serving the infringing content immediately. Please act accordingly or we will have to name you as a defendant in the copyright infringement lawsuit. I have attached the contract of the developer who assigned all rights to the computer program to my client. Please read carefully section 5 which makes it crystal clear that my client owns the source code on the website you are delivering to US based consumers. Please confirm you have ceased serving the cache immediately or face the appropriate consequences.

Sincerely,  
Kenneth Eade  
Attorney
